

CSS Rules Comments and Syntax

2. CSS Syntax and Comments

Scenario: You've joined a team and need to understand and maintain a large stylesheet.

Objective: Write clean, readable CSS with proper structure and comments.

Task:

- Create a section in styles.css with formatted rules and consistent indentation.
- Add descriptive comments above selectors.
- Example:

```
/* Style for main CTA button */  
.cta-button {  
  background-color: #007BFF;  
  color: white;  
}
```
