

React HandsOn 5: CSS Module Cohort Dashboard

Objectives

Understanding the need for styling react component

Working with CSS Module and inline styles

In this hands-on lab, you will learn how to:

Style a react component

Define styles using the CSS Module

Apply styles to components using className and style properties

Prerequisites

The following is required to complete this hands-on lab:

Node.js

NPM

Visual Studio Code

Notes

Estimated time to complete this lab: 30 minutes.

My Academy team at Cognizant want to create a dashboard containing the details of ongoing and completed cohorts. A react application is created which displays the detail of the cohorts using react component. You are assigned the task of styling these react components.

Download and build the attached react application.

Unzip the react application in a folder

Open command prompt and switch to the react application folder

Restore the node packages using the following commands

Figure 1: Restore packages

Open the application using VS Code

Create a new CSS Module in a file called "CohortDetails.module.css"

Define a css class with the name as "box" with following properties

Width = 300px;

Display = inline block;

Overall 10px margin

Top and bottom padding as 10px

Left and right padding as 20px

1 px border in black color

A border radius of 10px

Define a css style for html <dt> element using tag selector. Set the font weight to 500.

Open the cohort details component and import the CSS Module

Apply the box class to the container div

Define the style for <h3> element to use "green" color font when cohort status is "ongoing" and "blue" color in

React HandsOn 5: CSS Module Cohort Dashboard

all other scenarios.

Final result should look similar to the below image
