

## Design Pattern 9: Template Method Pattern

---

### Exercise 9: Implementing the Command Pattern

Scenario: You are developing a home automation system where commands can be issued to turn devices on or off. Use the Command Pattern to achieve this.

#### Steps:

Create a New Java Project:

Create a new Java project named CommandPatternExample.

Define Command Interface:

Create an interface Command with a method execute().

Implement Concrete Commands:

Create classes LightOnCommand, LightOffCommand that implement Command.

Implement Invoker Class:

Create a class RemoteControl that holds a reference to a Command and a method to execute the command.

Implement Receiver Class:

Create a class Light with methods to turn on and off.

Test the Command Implementation:

Create a test class to demonstrate issuing commands using the RemoteControl.
