

Solution Code - Module 3-Core Java - InterfaceImplementation

Below is the complete functional source code implementation for this assignment. All logic, validation rules, and structural requirements have been satisfied.

Source File: Q19_InterfaceImplementation.java

```
1 | // Define interface Playable
2 | interface Playable {
3 |     void play();
4 | }
5 |
6 | // Implement in Guitar class
7 | class Guitar implements Playable {
8 |     @Override
9 |     public void play() {
10 |         System.out.println("Strumming the guitar: G-C-D chords!");
11 |     }
12 | }
13 |
14 | // Implement in Piano class
15 | class Piano implements Playable {
16 |     @Override
17 |     public void play() {
18 |         System.out.println("Playing the piano: Beethoven's Moonlight Sonata!");
19 |     }
20 | }
21 |
22 | public class Q19_InterfaceImplementation {
23 |     public static void main(String[] args) {
24 |         // Instantiate the classes
25 |         Playable myGuitar = new Guitar();
26 |         Playable myPiano = new Piano();
27 |
28 |         // Call the methods
29 |         myGuitar.play();
30 |         myPiano.play();
31 |     }
32 | }
```
