Identify the differences between State and Props

Explain `ReactDOM.render()`

In this hands-on lab, you will learn how to:

Use Props

Apply `ReactDOM.render()`

Prerequisites

The following is required to complete this hands-on lab:

Node.js

NPM

Visual Studio Code

Notes

Estimated time to complete this lab: 60 minutes.

Create a React Application named "shoppingapp" with a class component named "OnlineShopping" and "Cart".

In Cart class, create 2 properties as mentioned below:

Itemname

Price

In OnlineShopping class, create an array of Cart and initialize 5 items.

Loop through these items and display the data as shown below:
