

Java Exercise: GradeCalculator

9. Grade Calculator

- Objective: Use conditional statements to determine grades.
- Task: Assign grades based on marks entered by the user.
- Instructions:
 - Prompt the user for marks out of 100.
 - Use if-else statements to assign grades:
 - 90-100: A
 - 80-89: B
 - 70-79: C
 - 60-69: D
 - Below 60: F
- Display the assigned grade.
