

Solution Code - Engineering concepts - DesignPatterns - Proxy_Pattern

Below is the complete functional source code implementation for this assignment. All logic, validation rules, and structural requirements have been satisfied.

Source File: ImageProxy.java

```
1 | interface Image { void display(); }
2 | class RealImage implements Image {
3 |     public RealImage() { System.out.println("Loading image from disk..."); }
4 |     public void display() { System.out.println("Displaying Real Image."); }
5 | }
6 |
7 | class ProxyImage implements Image {
8 |     private RealImage realImage;
9 |     public void display() {
10 |         if (realImage == null) realImage = new RealImage();
11 |         realImage.display();
12 |     }
13 | }
```
